

# No Symptoms? No Spread!

*Asymptomatic transmission is very rare*

For more information and references, go to:  
[www.AskHealthyQuestions.com/topics](http://www.AskHealthyQuestions.com/topics)

# Over 4,200 deaths have been reported after COVID-19 vaccination

*Thousands more deaths have likely occurred since vaccine reactions are greatly underreported*

For more information and references, go to:  
[www.AskHealthyQuestions.com/topics](http://www.AskHealthyQuestions.com/topics)

# Risks of COVID-19 are greatly overestimated

*Transmission from surfaces, outdoors, and from asymptomatic persons are all known to be extremely rare*

For more information and references, go to:  
[www.AskHealthyQuestions.com/topics](http://www.AskHealthyQuestions.com/topics)

# Low Vitamin D levels are linked to increased risks from COVID-19

*Vitamin D levels can be increased through sun exposure and supplementation*
